# About Us

*Jahan Salamat Beh Kala is a leading grower and supplier of fresh fruits, vegetables as well as nuts and dried fruit located in heart of country; Qazvin A Hub for Fresh Fruits and Vegetables as well as foods in Iran. With easy access to north, west and central part of Iran.*

*We have a family business of 37 years old in distribution and wholesaling in Iran with a great tie with top 10 manufacturers in food industry.*

*Qazvin, one of the largest provinces in Iran by area, boasts a diverse climate and fertile plains that make it a key agricultural region, particularly for fresh fruits and vegetables. The province benefits from both temperate and subtropical zones, allowing a wide range of horticultural products to flourish.*

***Key fresh products from Qazvin include:***

- Citrus fruits (especially oranges and lemons) from North of Iran***
- Kiwi***
- Tomatoes and cucumbers***
- Melons and watermelons***
- Iceberg and lettuces***
- Onions, eggplants, and Bell peppers***
- Pistachios and date***

***With growing infrastructure in cold storage, packaging, and export logistics, especially through the Alborz province which is a great location for fruit and vegetables.***

***Huge Investments in greenhouse farming, modern irrigation systems, and export-focused logistics has further unlocked the province's potential and turned it into a year-round supplier of high-quality fruits and vegetables.***

# *Our Products*

# Lettuce

***Romaine lettuce, celebrated for its crisp texture and lively green foliage, flourishes in the fertile lands of Dezful and Karaj. Grown in the nutrient-rich soils of these regions, Romaine lettuce from Dezful and Karaj offers a distinctive flavor profile and unparalleled freshness. Our company is proud to specialize in sourcing Romaine lettuce from these thriving areas. We cultivate strong ties with professional and trustworthy suppliers, ensuring the consistent delivery of superior and unique products.***

***Iceberg lettuce, prized for its crispness, mild flavor, and high water content, is cultivated in Dezful and Karaj, Iran. Fertile soils and favorable climates in these regions contribute to its unique qualities, making it a local favorite for salads. Our company specializes in sourcing Romaine lettuce from Dezful, maintaining close ties with reliable suppliers for high-quality products.***

# Cauliflower

**Cauliflower**, a versatile cruciferous vegetable, is celebrated for its mild flavor and versatility in various culinary dishes. With its dense, white curd-like head, cauliflower is not only a nutritious addition to the plate but also a canvas for creative cooking.

Rich in vitamins, particularly vitamin C and vitamin K, as well as fiber and antioxidants, cauliflower offers numerous health benefits. Its neutral taste makes it adaptable to a range of cooking methods, from roasting and steaming to being a key ingredient in cauliflower rice or mash.

In Iran, particularly in the regions of Dezful and Karaj, cauliflower thrives under optimal growing conditions. The fertile soils and favorable climate in these areas contribute to the cultivation of high-quality cauliflower, offering consumers access to locally sourced and fresh produce. Whether incorporated into traditional Iranian dishes or utilized in global cuisines, cauliflower from Dezful and Karaj exemplifies the rich agricultural diversity of the region.

Our company specializes in sourcing cauliflower from these regions, fostering close relationships with reliable suppliers to ensure the consistent procurement of high-quality products.

# Cabbage

*Red and green cabbage, two vibrant and nutrient-packed varieties, add color and crunch to a variety of dishes. With their tightly packed leaves and distinct flavors, these cruciferous vegetables are not only delicious but also bring a wealth of health benefits to the table.*

*Red cabbage, with its deep purple hue, is not only visually appealing but also rich in antioxidants and vitamin C. Its slightly peppery taste makes it a versatile ingredient, whether raw in salads or cooked in hearty dishes.*

*On the other hand, green cabbage, with its pale green leaves, offers a milder flavor and a satisfying crunch. Packed with nutrients like vitamin K and fiber, green cabbage is a nutritious addition to coleslaws, stir-fries, and soups.*

*In Iran, the regions of Dezful and Karaj serve as thriving hubs for the cultivation of both red and green cabbage. The fertile soils and favorable climates in these areas contribute to the development of high-quality cabbage varieties, ensuring that consumers can enjoy locally sourced and fresh produce that adds both flavor and nutrition to their meals.*

# Eggplant

*Eggplants, a versatile and popular vegetable, come in two distinct varieties that are exported to other countries: These varieties exhibit unique characteristics, flavors, and culinary uses, contributing to the global appreciation of this vegetable.*

*Depending on the season, various regions across Iran engage in the cultivation of eggplants. Notable areas like Jiroft in Hormozgan province, Yazd, and Isfahan are recognized for their significant contributions to the cultivation of high-quality eggplants. The diverse climates and fertile soils of these regions ensure the production of eggplants with exceptional taste and texture.*

*Our company's experts specialize in the export of high-quality eggplants, and we pride ourselves on our proficiency in selecting the finest produce. We have established strong connections with reliable suppliers in different regions, allowing us to consistently source top-tier eggplants that meet stringent quality standards. This commitment ensures that our customers receive premium eggplants for their culinary needs.*

# Red Apple

*Iran is renowned for its production of delicious red apples, and various regions contribute to the cultivation of this popular fruit. Among the notable areas known for their red apple orchards are Urmia, located in West Azerbaijan province, and the Alborz Mountains region, including cities like Rasht and Qazvin. These regions benefit from diverse climates and fertile soils, creating optimal conditions for the growth of high-quality red apples.*

*The red apples from Iran are celebrated for their crisp texture, sweet flavor, and vibrant color. The combination of traditional farming practices and modern agricultural techniques ensures that these apples meet stringent quality standards, making them a favorite both domestically and in international markets.*

*Our company takes pride in sourcing these premium red apples from reputable growers in various regions of Iran. We are committed to delivering apples that not only embody the rich agricultural diversity of Iran but also meet the expectations of consumers who appreciate the taste and quality of locally grown produce.*

# Celery

**Celery, a versatile and nutritious vegetable, is cultivated in various regions of Iran, showcasing the country's diverse agricultural landscape. Among the notable areas where celery is grown are the fertile plains of Dezful and the temperate climate of Karaj in the Central province. These regions provide favorable conditions for the cultivation of high-quality celery, known for its crisp texture and distinct flavor.**

**Celery thrives in well-drained soils and temperate climates, making it adaptable to different regions across Iran. The vegetable is commonly used in Iranian cuisine, adding a refreshing crunch to salads, stews, and various dishes.**

**Our company is dedicated to sourcing celery from these diverse regions, ensuring that we provide our customers with fresh and top-quality produce. By collaborating with reliable suppliers in different parts of Iran, we contribute to the availability of premium celery in the market, meeting the demands of consumers who appreciate the nutritional value and culinary versatility of this wholesome vegetable.**

# Bell Pepper

*Colorful bell peppers, known for their vibrant hues, are a delightful addition to the culinary landscape. Among the captivating varieties, the bell peppers come in two vivid colors: red and yellow. These peppers, commonly referred to as bell peppers, thrive in regions such as Rudan in Hormozgan province, Fars, and Isfahan.*

*The coastal plains of Rudan in Hormozgan, along with the diverse climates of Fars and Isfahan, provide optimal conditions for cultivating these peppers. The warm and sunny environments contribute to the peppers' sweet and crisp characteristics, making them a favored choice for various dishes and culinary creations.*

*Whether adding a burst of color to salads, enhancing the flavor of stir-fries, or being stuffed and baked to perfection, red and yellow bell peppers from these regions showcase the agricultural richness of Iran. Our company takes pride in sourcing these colorful bell peppers, ensuring that we deliver fresh, high-quality produce to meet the diverse preferences of our customers.*

# Mazafati Dates

**Mazafati dates, also known as Rotab Mazafati, are a popular and distinguished variety of dates in Iran. Recognized for their medium to large size, dark brown color, and sweet, fragrant taste, Mazafati dates hold a special place among date enthusiasts. One of the key features of Mazafati dates is their high moisture content, contributing to their unique softness and freshness.**

**These dates thrive in regions with warm climates and fertile soil. Jiroft and Bam in Hormozgan province are notable areas where Mazafati dates are cultivated in abundance. The ideal weather conditions and nutrient-rich soil in these regions create an optimal environment for the growth of Mazafati dates.**

**Our company proudly specializes in sourcing Mazafati dates from reliable suppliers in Bam and Anbarabad in Hormozgan province. We collaborate with trusted and professional suppliers to ensure the procurement of high-quality and fresh dates. Our expertise in this field has positioned us as a top choice for purchasing and distributing Mazafati dates, known for their exceptional taste and quality.**

# ***Iranian Pistachios***

***Pistachios are prized worldwide for their rich nutrients, unique flavor, and vibrant color. Iranian pistachios, particularly known for quality, have long enjoyed strong international demand.***

***Pistachio Slivers: Their bright green color and crisp texture make them ideal for garnishing and flavoring desserts, pastries, and various dishes.***

***Pistachio Kernels: Packed with protein, fiber, and vitamins, they add both taste and nutrition to meals, salads, and snacks.***
